IMPORTANT

Energy Tax Credit Deadline!

Energy Tax Credit

FACTS FOR YOUR CUSTOMERS

- The tax credit has been raised from 10% to 30% on qualifying products and the Credit Cap increased to \$1,500 (30% of \$5,000).
- Windows, Doors & Skylights must be equal to or below a "Total Unit" U-Value 0.30 and Solar Heat Gain Coefficient (SHGC) of 0.30.
- Qualifying products must be placed in service from 1/1/09-12/31/10.
- Products purchased must be installed in taxpayer's principle residence.
- Tax credit covers window, door & skylight units ONLY. Labor, additional materials and sales tax do not qualify for the tax credit.
- The IRS requires a receipt for the contractor's total "selling price" of the units and the specification labels from each unit be submitted at tax filing.
